

## Pure IP Enterprise Voice

-  Licensed PSTN replacement services in 50 countries
-  Managed solutions for hard-to-reach locations
-  Live technical support
-  Enterprise-level security compliant
-  Complimentary suite of services to enable enterprise voice
-  Partnerships and capabilities with the leading application and platform vendors
-  Trusted by millions daily to provide secure and reliable voice to empower business
-  Global 13 points of presence

## Enabling Enterprise Telephony across multiple platforms

### Microsoft Teams Operator Connect

Operator Connect is an easy-to-launch cloud-based solution that enables businesses to make and receive external calls to and from the public switched telephone network (PSTN) through Microsoft Teams.

- Quick to provision and easy to manage voice services through the Microsoft 365 Admin Center
- Utilizes trusted cross-connect in Azure to eliminate the need for manual configuration
- Cost-effective option

### Direct Routing

Direct Routing is a traditional method of adding external calling to Microsoft Teams.

- Agility & flexibility for more complex scenarios
- Integration with other applications

UCaaS market is expected to grow from \$44Bn to \$161Bn by 2031

## Cisco Cloud Connect for Webex Calling

Cloud Connect is a “Bring your own carrier” option for Webex PSTN calling and contact center using direct cloud peering; no on-premise hardware needed.

- Expanded carrier choices in unique geographic areas
- Enhanced services that include local currency support, managed PSTN connectivity and expanded global PSTN services like service numbers
- Seamless management that provide a single pane of PSTN procurement and provisioning for your phone and contact center needs

## Connector for Zoom

Zoom customers can easily add PSTN calling with Connector Zoom Phone.

- › Easily installed and configured
- › Connectivity to 50 countries
- › 24/7 support with management reporting tools
